- Awarded Enthusiastic Learner Recognition

Profile Summary

- A highly motivated and detail-oriented MCA graduate with strong foundational knowledge in both frontend and backend development.
- Proficient in frontend technologies like HTML, CSS, JavaScript, and React for building dynamic, responsive interfaces.
- Skilled in backend development using Node.js, MongoDB, and MySQL, with a solid understanding of DBMS concepts.
- Experienced with component-based architecture, reusable UI components, and optimized performance techniques.
- Continuously learning new technologies to improve development speed and overall user experience.

Work Experience

Web Development Intern   May 2025 - June 2025
NativeSoftTech

- Designed and developed a fully responsive, animated personal portfolio website using React.
- Integrated GSAP and Framer Motion for engaging scroll-based and UI animations.
- Gained hands-on experience in modern frontend practices including component-based architecture, responsive design, and animation libraries.

Web Development Intern   Jan 2025 - April 2025
Jinarth Infotech

- Crafted 15+ responsive user interfaces using React.js and Tailwind CSS, boosting user engagement by 25% through intuitive and mobile-optimized designs.
- Engineered backend services with Node.js and MongoDB, managing 500+ database entries and achieving 99% API responsiveness.
- Spearheaded the live project Infotech Digital Presence, streamlining client-side navigation with React Router DOM and enhancing page load times by 30% through optimized Redux state management.

Relevant Projects

React: Personal Portfolio Website

- Developed a fully responsive and animated personal portfolio website using React, GSAP, and Framer Motion with smooth scrolling and modern UI design.

React: Infotech Digital Presence

- Built a modern digital platform for an IT services company focusing on an interactive and dynamic frontend experience.

MERN Stack: Online Cake Shop

- Developed a full-stack online cake shop with dynamic product listings, user authentication, and order management.

React Native: Messenger App

- Created a real-time messaging app enabling one-to-one chat with instant message delivery and updates.

ASP.NET: Golden Glow Beauty Bar website

- Designed and developed a responsive beauty service website with booking and contact features.
